Liverpool Continues to Buy Freely, But Helped by Enormous Manchester Trade.

Tuesday afternoon, Dec 22, Large activity in the Manchester cotton manufacturing district has athnulating effect on the Laverpool market, and, in turn, on this side the water, which is at the moment the chief inspiration for attempth that holds prices up in spite of the fact that many people ordinarily look for some reaction right at the holiday period. The respects are to the effect that the Orient is buying freely and the only limit seems to be the capacity of the mills to turn out the product. The time film apparently not yet arrived when the mills feel safe in adopting an attitude of waiting to see if prices will react for their profits are so tremendous that a matter of a few cents a pound in cost of raw material is inconsequential. Liverpool today was the source of most of the strength and finished the session steady and much better than expected. Finals were at gains of 22 to declines of 2 points, the near monthsheing stronger than the others. Spots were marked up 11 points, middling to \$2.540. With sales 4.000 bales, including 1.500 American. Manchester cabled that inquiry for cloths was encouraging and demand good, while yarms were firm, fredling therein moderate Such a report right at Christmas indicates how keen must be the demand for stuff.

On this side there were steadier sterning rates early, but later firmness in call mancy, rates in the early afternion going as high as 18 per cent, helped to restrict buying and checked the rising tendency. It was first day for January notices in New Orleans, but none were started. The March position in New York opened at 34.65 and after a slight hesitancy and a dup to 34.56 baying, chiefly for Liverpool, sent the option to 34.58, which proved the creat Trading was fairly active, but much every started. The March position in short interest has been reduced. The holiday feeling prevailed, but there was very little disposition to take the short side.

very little disposition to take the short side.

The spot department is not doing much now, but there is an air of confidence throughout the belt, as exports are running fairly large and it is believed they will do so for a long time. The general feeling is that the trade is sure to see an exhaustion of certain grades and that futures will be governed more by this itian anything else. What the destiny of the low grades remains to be seen, but they can not be hurt by the scarcity of the better. Week-end statistics are expected to be incomplete and delayed this week, but are more than likely to be builtish again. Futures closed 8 to 37 points up, tone steady. New Orleans-Spot men Claim that there is a better demand from Japanese ...ew Orleans—The market has a good ione on the absence of tenders on this, the first notice day for January, and on

reports that spot sales were made after hours yesterday at the highest basis of the season—S. & G. New York—The Commercial says. Further improvement in exchange was compled as evidence that the market is tendily recovaries.

accepted as evidence that the market is stendily recovering from its recent panie. The scarcity of bills led observers, to conclude that holders are becoming more confident of the immediate future. The shipping board has advanced cotton rates from Atlantic ports to the United Kingdom 19 cents a hundred pounds.—Clark & Co.

New York—Hubbard good buyer of May, selling scattered: no important news—Clevenburg to Cotter & Turner.

New Orleans—Tomorrow last December notice day New York, where notices will probably be stopped. Uncertain market today owing to notices and evening up accounts in advance of long holiday period this market. Sentiment divided—Beer to McFall.

New Orleans—The war financing cor-

New Orleans—The war financing cor-poration, whose funds are designated to aid the financing of foreign trade, re-ports that indications point to a greater extension of these facilities and offi-cials of corporation expect a larger number of applications.—McFadden to McFail

New York-Trade and Liverpool buy-ing; contracts rather scarce.-Cleve to C. & T.

Liverpool reported to be coming into Manchester murket with both hands and feet. Stock at Hombay last Friday was \$21,009 bales: last year, 369,000; at Alexandria, Egypt 232,000, against 261,000. New York—The news from Manchester is bullish. The holiday trade here is said to be on a record-breaking scale. This is offset by the high price for cotton as well as all other commodities. It all sounds reasonable. Deflatjon has got to make a start sometime, and the present is as good a time as any. There is only one safe course now, and that is to take advantage of every strong period and market your long cotton.—Ettelson, per T. & M.

Wednesday, not much change in temperatures.

Chicago—Scattered commission demand in oats. Also further reinstatement of long lines by influential local traders. Trade volume moderate. Underton firm.—Babcock.

Chicago—There have been all guanner of excuses and reasons for small receipts. These excuses do not overcome the subborn fact that receipts are small. There is still one other underlying factor in the market, namely, the refusal of the producers to sell either corn or oats in volume. This condition will have to be reckoned with as time goes ou.—Babcock to Clark & Co.

Ghicago.—There is better commission demand in oats now, also buying by Seaboard houses. Export business is reported at outside points.—Babcock.

Chicago.—Primary receipts and shipments: Receipts—Wheat, 1,191,000 vs. 1,925,000; cont. 1,122,000 vs. 129,000; cats, 542,000 vs. 1,134,000. Shipments: 524,000 vs. 861,000; 414,000 vs. 255,000; Stocks.

Stocks.

Stocks. New York—Figures published by the department of commerce on our foreign trade convey some idea of the enormity of the business that is being done in this country, and furthermore, gives another reason why money is and has been in such demand as to result in frequent flurries. Exports of \$741,000,000 in one month requires banking facilities of large dimensions. The banking part-of our business is today the principal obstacle to a revival of big operations on the stock exchange, for in all other respects conditions are now fairly satisfactory.—T. & M.

New York—The Texas Co. bas ad-

New York—The Texas Co. has advanced prices for crude oil to \$1.59 a barrel on certain grades. New York—The renewal rate for call loans is not very encouraging. Doubt as to Anhconda dividend is another element against the market. The redeeming feature is the moderate size of accounts. Until year-end disbursements are provided for, we may expect high rates and uncertain markets.—Ettelson to Clark & Co.

New York—Borrowers are bidding 71/2 and 8 per cent for all industrial loans of 50 and 90 days. Mixed money, 73/2 per cent bid. During past two days a little four mouths money was placed. Maturing loans are being paid off in a good many instances, although some obligations are being renewed.—Dow-Jones & Co.

SELECTED USED CARS

Here's the difference between buying from the "trade in on a new car dealer" and from us. We are the largest exclusive used ear dealers in the South and buy only the "cream" of used care offered for sale. A new car dealer is unfortunately forced to trade or buy any old junk in his anxiety to sell a new car over his competition.
